OF BUILDING CODES & REGULATIONS #99-1**

CODE SECTION : UBC 1004.3.4.3.2.2

02/10/99

SUBJECT : WINDOWS IN CORRIDOR WALLS

UBC Section 1004.3.4.3.2.2, amended, allows 3/8 tempered glass to be used as borrowed lights in rated corridor walls, when fast response sprinkler heads are installed on both sides of the opening, as approved by the fire department.

This use may be extended to include door openings containing non-rated frames and wood or minimum 3/8 inch thick glass doors, where the doors are self-closing and self-latching. The total area covered may not exceed 50% of the area of the wall of the room separated from the corridor.
